

**VOLUNTARY REMEDIATION PROGRAM
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT**

PROJECT SUMMARY

Site name:	NTN-BCA
Applicant Name:	Federal Mogul Corporation
Site location:	987 N. U.S. Hwy 421 Greensburg, IN 47240
VRP Site No.:	6970402
Project Manager:	Chris Bauer
Date received:	4/21/97
Date completed:	11/13/01
Contaminant(s):	VOCs, SVOCs, PNAs, PCBs, Metals
Media cleaned up:	Subsurface soils and groundwater
Cleanup Objectives Achieved:	1996 VRP Tier II Nonresidential
Deed/Land use restrictions:	Property to remain nonresidential.

Project Summary: The approximately 39-acre site contains a 173,800 square foot building constructed in 1962 for use as a steel ball bearing manufacturing plant. In late 1996, NTN-BCA Corporation purchased the site from Federal Mogul Corporation. Two areas of concern were identified on-site. Area 1 is located to the northwest of the plant building and is the location of two, former No. 2 fuel oil USTs. Area 2 is located to the southeast of the plant building and is the location of two, former process waste oil tanks and cutting oil USTs. The two areas were identified as areas of concern due to the presence of elevated Total Petroleum Hydrocarbons. No remediation was necessary.
